Message:

Dear Governor Cooper,  
Please do whatever is in your power to prevent the building of the Atlantic Coast Pipeline. This project will be vastly harmful to nature and wildlife, destroying more than 600 acres of wetlands, threatening rivers, streams, and tributaries. We cannot just let the important and unique parts of our state be destroyed in the name of capitalism.

I do want to thank you for coming out against off-shore drilling, as well as your pledge to uphold the Paris Climate treaty. Thank heaven there is some sanity in this world. I hope that we can stand firm enough to offset the forces that are trying to destroy much of what we treasure and have fought for.

Sincerely,  
Sue Andresen
